

COLLEGE OF ARTS AND SCIENCES

The College of Arts and Sciences is a diverse community of educators, students, and researchers from across the country and around the world who work together to advance the boundaries of human knowledge, foster critical thinking skills, promote intellectual inquiry, and develop an understanding of different human cultures necessary to become engaged global citizens.

These goals compel a commitment to creativity and inquiry free of bias and based upon the principles of objective scholarship. They require a responsibility to promote and convey those elements of the liberal arts and sciences that must be essential components of the educational goals of all units of the university. The college seeks richness through diversity of its programs and strength through erudition.

The College of Arts & Sciences is the university's largest and oldest; it teaches the most students, and provides the backbone for Troy University's educational and research missions. As a result, you will find a broad array of academic programs that will pre-

pare you for careers in public and private sectors as well as post-graduate and professional schools. These programs emphasize the core values of a classic liberal arts education, as well as the skills and flexibility one will need to meet the challenges of the 21st-century workplace.

A degree from the College of Arts & Sciences is much more than preparation for a career—it is preparation for a complete, rich, and rewarding life.

In addition to general studies courses, major courses and minor courses, sufficient free electives should be chosen to total at least 120 hours.

As part of ongoing planning and evaluation, the College of Arts and Sciences regularly evaluates student learning outcomes for each degree program.

COLLEGE OF ARTS & SCIENCES GLOBAL SCHOLARS PROGRAM (TROY CAMPUS)

The College of Arts & Sciences (CAS) Global Scholars Program (and CAS Global Scholars Program) is open to all students. Each cohort will be limited to 10 students. Program benefits include:

Designation of Global Scholar appearing both on student diplomas and transcripts attesting to the graduate's international awareness and global preparedness.

Meaningful international travel experience for the purpose of professional development in the student's chosen field of study. (Most students will qualify for generous supplemental funding for international travel.)

Regular interaction with international students on campus at Troy University.

Resume and character-building service learning opportunities in cultural and international contexts.

Strong relationships with mentors here at Troy University, which will produce highly trained graduates with the connections needed to compete for jobs and funded graduate programs.

Students who complete 12 credit hours of language, which is an optional part of this program, will be able to graduate with a Bachelor of Arts (BA) degree, rather than a Bachelor of Science (BS) degree if so desired. Students interested in service abroad after college are encouraged to inquire about Troy University's Peace Corp Prep Program, which can be completed as part of the CAS Global Scholar Program.

Additional information and a link to the application form can be found on the program website at <https://www.troy.edu/casglobalscholars>.

Requirement 1 - Directed Coursework (18-36 credit hours)

Aimed at international awareness and global preparedness selected from the following three categories. Classes that fulfill this requirement can also be used to satisfy BA language requirements and one of the following categories of classes: general studies requirements, major requirements, minor requirements, or free elective requirements. Global Scholars are expected to maintain good academic standing in their program, major, and minor. Student's whose GPA falls below 2.75 will be required to meet with the CAS Global Scholar Program Director

for academic counseling.

Option 2– 18 Hours

Transfer of ***Specialized technical courses**. (not to exceed 18 semester hours.)

***Specialized technical courses.**

Credit will be awarded for specialized technical knowledge based upon American Council of Education (A.C.E.) credit recommendations or transfer work from regionally accredited (Southern Association of Colleges and Schools, Middle States Association of Colleges and Schools, etc.) post- secondary community college, or technical schools as approved by the Academic Council. Specializations are not available in fields of study that are offered through Troy University as majors, programs, or minors, e.g., nursing, computer science, information systems, or education. Exceptions to the use of a Troy University minor are the programs in Aviation Operations and Advanced Professional Flight. Program requirements for either minor may be used to satisfy the 18 hours of specialized technical courses.

Eligibility

Eligibility for enrollment in one of the applied science degree programs is dependent upon prior education and/or experience. Before enrollment in one of the programs, official documentation of prior learning must be submitted to determine eligibility. All post-secondary technical school transfer students must complete all courses required in the institution's curriculum and earn (if appropriate) a diploma or certificate before being granted admission into the resources management degree program. No additional credit will be awarded for the possession of a license (i.e., all credit awarded is based on documentation of training and evaluation leading to the issue of a license, not the mere possession of a license). All credit from the Community College
